Jenkka (FE2122)

Excellent taste / Mid-season variety

Jenkka is a compact growing plant type with some overhanging leaves. The flower trusses are rather short but still the variety is well pickable. Furthermore the flowers are well protected against night frost.

Ripening time

- The ripening time is about three-four days after Sonata
- Alternative to Sonata, Sonsation and Polka

Productie

- Very high yield
- High percentage class 1 fruits

Fruit quality

- Conical fruit
- Primary berries can be slightly grooved
- Excellent taste with a lot of juice
- High brix
- Intensivel red fruit colour
- Glossy
- Beautiful shell picture
- Darkens slightly

Jenkka (FE2122)

- Exeptional taste
- High gloss
- Good firmness & fruit size
- Suitable for direct sales and shorter retail channels
